## Summary

Self-learning and passionate Full Stack Developer with 1+ year of experience building modern web applications with **React**, **Next.js** and **.NET**. Bachelor degree in Automation Engineering. Worked over 2 years as Industrial Analyst before a career transition to the web development area. Seeking to further improve programming skills to become an experienced developer.

## Professional Experience

**Freelance Frontend Developer** | Present  
Self employed

- Creating and maintaining modern websites for a variety of clients in collaboration with Backend developers and marketing agencies.
- Technologies: React, Next.js, Node.js, Strapi, RD Station Marketing.

**Industrial Analyst** | 2019 - 2022  
Bunge

- Implemented an application as a PoC which digitized vehicles sanitary inspections in a soybean crushing site, reducing the usage of hundreds of paper per month.
- Technologies: Microsoft Power Apps and Power Automate.

**Intern** | 2018 - 2019  
Thales Group

- Developed a web application as a PoC to simulate a kiosk for instant credit cards issuance to customers. This project supported the sales team to close deals with banks and FinTechs.
- Technologies: HTML, CSS, JavaScript, Python and Node.js.

## Projects

**DEVinHouse Solar Energy** [↗](#)

A CRUD Web Api that simulates a solar energy management system in order to improve my skills in .NET and C#.

- Technologies: ASP.Net Core, Sendgrid, SQL Server, Docker.

**My Portfolio** [↗](#)

Personal portfolio, developed in Next.js, where I show my most relevant projects, skills, resume and contact for jobs.

- Technologies: React, Next.js, EmailJS, Vercel.

**Marvel Next** [↗](#)

A web application that displays Marvel characters data developed with the purpose of improving my Next.js skills.

- Technologies: React, Next.js, Marvel Developer API, React Query, Material UI, Vercel.
